

PONDICHERRY UNIVERSITY QUESTIONS

UNIT-1:

2 MARKS

1. List out the different functions of Web Browser? **(APR 2016) (Ref.Qn.No.15, Pg.no.7)**
2. State the uses of IP? **(APR 2016) (Ref.Qn.No.9, Pg.no.6)**
3. How to create Arrays in Java Script? **(APR 2016) (Ref.Qn.No.69, Pg.no.21)**
4. What is SMTP? Mention any one use of it. **(NOV 2016) (Ref.Qn.No.35, Pg.no.13)**
5. Define literal in Java script. Give an example. **(NOV 2016) (Ref.Qn.No.64, Pg.no.20)**
6. Name the elements of WWW. **(APR 2016) (Ref.Qn.No.19, Pg.no.8)**
7. State the purpose of IMAP and MIME protocol. **(APR 2017) (Ref.Qn.No.37&39, Pg.no.13&14)**
8. Define Java script statement and give an example. **(APR 2017) (Ref.Qn.No.60, Pg.no.19)**
9. Mention array creation in Java script with example. **(APR 2017) (Ref.Qn.No.69, Pg.no.21)**
10. Define "Markup Language". **(NOV 2017) (Ref.Qn.No.77, Pg.no.23)**
11. Write short notes on MIME. **(NOV 2017) (Ref.Qn.No.37, Pg.no.13)**

11 MARKS

APRIL 2016 (REGULAR)

1. (a). Summarize the concept of DNS? **(6 Marks) (Ref.Qn.No.13, Pg.no.67)**
(b). Write a short notes on WWW. **(5 Marks) (Ref.Qn.No.3, Pg.no.26)**

(OR)

2. Explain HTML forms in detail along with form elements, attributes and methods and Write an HTML document to provide a form that collect name and telephone numbers. **(Ref.Qn.No.5, Pg.no.41)**
3. Write a Java Script that inputs several lines of text and a search character determines the number of occurrence of the character in the text using suitable string methods.
(Ref.Qn.No.35, Pg.no.135)

NOV 2016 (ARREAR)

1. Explain the following:
(a) SMTP **(Ref.Qn.No.9, Pg.no.55)**
(b) MIME **(Ref.Qn.No.11, Pg.no.62)**

(OR)

2. Discuss the various data types available in Java Script. **(Ref.Qn.No.25, Pg.no.97)**

APRIL 2017 (REGULAR)

1. Explain in detail about HTML forms along with form elements, attributes and methods.

(Ref.Qn.No.5, Pg.no.41)

(OR)

2. With the help of a schematic diagram elucidate the operational scenario of SMTP protocol.

(Ref.Qn.No.9, Pg.no.55)

3. Mention the types of java script objects. And also explain each with an example. **(Ref.Qn.No.32, Pg.no.120)**

NOV 2017 (ARREAR)

4. Define CSS. What are the various types of CSS? Explain the application of CSS with a case study of

Online tutoring web site. **(Ref.Qn.No.20 , Pg.no.85)**

(OR)

5. Elaborate in detail about Object handling features supported by JavaScript. **(Ref.Qn.No.32, Pg.no.120)**

PONDICHERRY UNIVERSITY QUESTIONS

UNIT-2:

2 MARKS

1. Compare Client and Server side Programming? (APR 2016) (Ref.Qn.No.1, Pg.no.2)
2. What is cookie? How to create it? (NOV 2016) (Ref.Qn.No.22, Pg.no.6)
3. Mention any two uses of session tracking. (NOV 2016) (Ref.Qn.No.54, Pg.no.13)
4. What are the ways by which a server and a browser do communicate? (APR 2017) (Ref.Qn.No.66, Pg.no.15)
5. List out any four major features of JSP. (NOV 2017) (Ref.Qn.No.66, Pg.no.15)
6. Write short notes on Servlets. (NOV 2017) (Ref.Qn.No.2, Pg.no.2)

11 MARKS

APRIL 2016 (REGULAR)

1. (a). Explain how are the JSP requests handled with an example? (6 MARKS)
(Ref.Qn.No.17, Pg.no.70)
- (b). What are Directives? Explain the concept of JSP directives. (5 MARKS)
(Ref.Qn.No.12, Pg.no.46)

NOV 2016 (ARREAR)

1. Explain the life cycle of servlet with a neat diagram. (Ref.Qn.No.4, Pg.no.21) (OR)
2. Write about the steps involved in creating simple Beans in detail. (Ref.Qn.No.20, Pg.no.80)

APRIL 2017 (REGULAR)

1. Illustrate in detail about life cycle of a Servlet with an example of your choice.
(Ref.Qn.No.4, Pg.no.21)
- (OR)
2. With a case study of a movie ticket booking web site steps involved in database handling in JSP.
(Ref.Qn.No.18, Pg.no.76)

NOV 2017 (ARREAR)

1. (a) With suitable example, elucidate in detail how cookies are created. (6 MARKS)

(Ref.Qn.No.8, Pg.no.35)

(b) List out the applications object in cookies. (5 MARKS) (Ref.Qn.No.22, Pg.no.82)

PONDICHERRY UNIVERSITY QUESTIONS

UNIT-4:

2 MARKS

1. List the different steps to be followed while adding Multimedia file to the web? **(APR 2016) (Ref.Qn.No.7, Pg.no.3)**
2. List out the basic security requirements for E-Business? **(APR 2016) (Ref.Qn.No.14, Pg.no.4)**
3. What is ActiveX Control? **(APR 2016) (Ref.Qn.No.41, Pg.no.10)**
4. Define E-Marketing. Mention any one use of it. **(NOV 2016) (Ref.Qn.No.22, Pg.no.6)**
5. What is search interface? **(NOV 2016) (Ref.Qn.No.33, Pg.no.9)**
6. What is search engine? **(APR 2017) (Ref.Qn.No.34, Pg.no.9)**
7. Short the features of online shopping. **(APR 2017) (Ref.Qn.No.13, Pg.no.4)**
8. Write in short about Streaming in web applications. **(NOV 2017) (Ref.Qn.No.42, Pg.no.10)**
9. Explain the advantages of E-Marketing. **(NOV 2017) (Ref.Qn.No.26, Pg.no.7)**

11 MARKS

APRIL 2016 (REGULAR)

1. Explain in detail about the N-tier Architecture and its components? **(Ref.Qn.No.7, Pg.no.37)**

NOV 2016 (ARREAR)

1. Write short notes on :

(a) Speech synthesis

(Ref.Qn.No.2, Pg.no.12)

(b) E-Business model

(Ref.Qn.No.4, Pg.no.24)

(OR)

2. Discuss about design and working principles of search engine. **(Ref.Qn.No.8, Pg.no.41)**

APRIL 2017 (REGULAR)

1. Explain multimedia Authoring and User Interface Design? **(Ref.Qn.No.10, Pg.no.47)**

(OR)

2. Describe the working principle of search engine in web application. **(Ref.Qn.No.8, Pg.no.41)**

NOV 2017 (ARREAR)

1. Illustrate in detail about various components involved in e-commerce and its business model?

(Ref.Qn.No.3,4 Pg.no.20, 24)

(OR)

2. Write in detail about Semantic Search process. Explain various components involved in designing a Semantic Search Engine. **(Ref.Qn.No.8, Pg.no.41)**
